

31-109 Endeavor Quick-Lace Universal Wrist Splint

HCPC L3908 Approved

Indications:

Carpal tunnel syndrome

Rheumatoid arthritis

Osteoarthritis

De Quervain's Disease

Fracture of the radius

Smith's fracture

Fracture of the shaft

**Sprains and strains of the
wrist and hand**

Lightweight Design

Weighing under 4 oz., the Endeavor wrist splint provides incredible support while remaining lightweight and low-profile, helping patients get back to normal activity quickly.

Easy to Use/ Adjust

The Endeavor wrist splint features a hook strap and D-ring closure system, allowing for easy application and adjustment without requiring tools or further assistance.

Breathable Construction

Made of breathable soft goods, the Endeavor wrist splint promotes airflow to the wrist and hand, speeding up the healing process as well as to help keep patients cool and dry, even after long periods of use.
